Design and Space Planning: There is much to consider when ordering furniture especially regarding the area or space that the furniture will be put into. You may find it best to work directly with Tangram to ensure that you are considering all details and getting what you really need.

Budget Planning: Matching your furniture choices and needs with your budget can sometimes be challenging. Tangram can provide quotes and different configurations to help you save money.

Ergonomics: Office furniture is something you'll use every workday. It's important to consider ergonomics when selecting or specifying furniture.
